

College and Career Readiness Cut Points (aligned with Smarter Balanced Proficiency 60-68 percentile)

The MAP Growth college and career readiness cut points are aligned with the proficiency cut points on the Smarter Balanced Assessment. These cut points measure if a student is on-track for college and career readiness—if they are on a trajectory to graduate from high school with the ability to pass a credit-bearing college course without remediation. These cut points DO NOT represent the average or typical RIT score for a student at that grade level.

DMPS adopted the Smarter Balanced aligned cut points in the summer of 2016 when the Iowa Department of Education intended to adopt Smarter Balanced. That all changed with the 2017 legislative session. When the state does adopt a new state assessment, our MAP cut points will probably change to align with that assessment.
