## Growth Targets

Growth targets on MAP Growth are individualized for students and set based on maintaining percentile rank. For example, if a student is at the 10th percentile in the fall and makes exactly their growth target, they will remain at the 10th percentile in the winter. Students with below average (<50th percentile) achievement need to grow more than their target to grow towards college and career readiness. More information on growth is located [here](#).

## Recommended Hardware Minimums for Testing

- **Two** sets of 25-30 computers: elementary schools with more than 500 students, middle schools, high schools
- **One** set of 25-30 computers: All other elementary schools
- Mice and headphones (**K-2 only**): set of 30 mice and headphones to administer MAP for Primary Grades (available from central stores for purchase with school funds)
